

RUBY® 10

A 10-inch touchscreen video magnifier

Portable video magnifier with the convenience of a touchscreen and optional text-to-speech

The RUBY 10 is a portable video magnifier with three cameras for distance, reading, and an extended arm for full-page image capture and optional OCR.

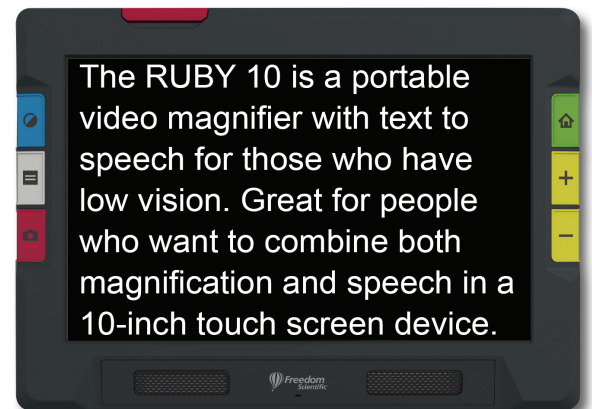

Perfect for individuals who want a larger screen and desktop capabilities in a portable package. Choose the speech model for text-to-speech functionality.

Use right out of the box with intuitive controls, built-in reading stand. Unique, patent-pending viewing modes improve contrast and maximize comfort.

RUBY 10 Features

- Magnify from 2X to 24X
- Touchscreen menu buttons and tactile buttons
- Portable and lightweight
- Magnify small objects and fine print
- See objects at a short distance
- Save scanned images and documents
- Connect via Miracast or USB to an external display
- Scan and read full-page documents (speech model)
- Connect a headset to listen to documents privately (speech model)

Available in two models:

RUBY 10 Speech, RUBY 10 (non-speech)
